

Start simple with MyPlate Plan

The benefits of healthy eating add up over time, bite by bite. Small changes matter. Start Simple with MyPlate.

Healthy eating is important at every stage of life. What a child eats and drinks today can impact a child's health now and in the future. Provide foods and beverages that are full of nutrients. Make every bite count.

Food Group Amounts for 700 Calories a Day for Ages 12 to 23 Months

Fruits	Vegetables	Grains Crains 134 ounces	Protein	Dairy Dairy 12/3 cups
Focus on whole fruits Focus on whole fruits that are fresh, canned, pureed, or frozen.	Vary veggies Choose a variety of colorful fresh, frozen, and canned vegetables—make sure to include dark green, red, and orange choices.	Make most grains whole grains Find whole-grain foods by reading the Nutrition Facts label and ingredients list.	Provide a variety of protein foods Include a variety of protein foods like seafood; lean meats; poultry; eggs; nut, seed, and soy products; and beans, peas, and lentils.	Provide whole milk along with reduced-fat yogurt and cheese Offer your child full-fat milk along with reduced-fat yogurts and cheeses. Fortified soy milk and yogurt can also count. Avoid dairy products with added sugars.

Avoid foods and beverages with added sugars and choose foods and beverages with less sodium.

Be sure to consider food safety when feeding young kids. For more information, visit: <u>People at Risk: Children Under Five</u>.

MyPlate Plan

Provide healthy foods from all of the food groups, and look for signs of hunger and fullness. Prevent choking by avoiding small or tough pieces of food. Celebrate small wins, bite by bite.

Write down the foods offered Food group targets for a 700-calorie pattern are: for each food group. $\frac{1}{2}$ cup Fruits A child may be hungry if he or she: Hunger $\frac{1}{2}$ cup of fruits counts as Cues • Reaches for or points to food. • $\frac{1}{2}$ cup fresh or canned fruit; or • Opens his or her mouth when offered a • ¹/₄ cup dried fruit; or spoon or food. • ¹/₂ cup 100% fruit juice. Gets excited when he or she sees food. • Uses hand motions or makes sounds to let you know ²/₃ cups eqetable: he or she is still hungry. $\frac{1}{3}$ cup of vegetables counts as • Expresses desire for specific food with words or • $\frac{1}{3}$ cup fresh, frozen, or canned vegetables; or sounds. ²/₃ cups leafy salad greens: or • Combines phrases with gestures such as "want that" • $\frac{1}{3}$ cup 100% vegetable juice. and pointing. 1³/₄-ounce equivalents Grains A child may be full if he or she: 1 ounce of grains counts as • Pushes food away. 1 slice bread: or • Closes his or her mouth when food is offered. 1 ounce ready-to-eat cereal: or • $\frac{1}{2}$ cup cooked rice, pasta, or cereal. Turns his or her head away from food. • Uses hand motions or makes sound to let you know 2-ounce equivalents he or she is full. Protein • Shakes head to say "no more." 1 ounce of protein foods counts as • 1 ounce seafood, lean meats, or poultry; or Uses words like "all done" or "get down." • 1 egg; or • 1 Tbsp thinly spread peanut butter; or • ¹/₄ cup cooked beans, peas, or lentils. 1²/3 cups Children under age 4 are at Dairv risk of choking while eating. 1 cup of dairy counts as Choking For more information, visit: 1 cup dairy milk; or Hazards 1 cup dairy yogurt; or Reducing the Risk of Choking in • 1 cup fortified soy milk or yogurt; or Young Childen at Mealtimes. • $1\frac{1}{2}$ ounces hard cheese.
